

Part 1 General	1
1.1 Scope	1
1.2 Purpose and Exceptions	2
1.3 Definition	2
Part 2 Electric Elevators	18
2.1 Construction of Hoistways and Hoistway Enclosures	18
2.1.1 Hoistway Enclosures	18
2.1.2 Construction at Top and Bottom of the Hoistway	19
2.1.3 Floor Over Hoistways	19
2.1.4 Control of Smoke and Hot Gases	19
2.1.5 Windows and Skylights	19
2.1.6 Projections, Recesses and Setbacks in Hoistway Enclosures	20
2.2 Pits	20
2.2.1 General	20
2.2.2 Design and Construction of Pits	20
2.2.3 Guards Between Adjacent Pits	20
2.2.4 Pit Access	20
2.2.5 Illumination of Pits	21
2.2.6 Stop Switch in Pits	22
2.2.7 Minimum Pit Depths Required	22
2.2.8 Access to Underside of Car	22
2.3 Location and Guarding of Counterweights	22
2.3.1 Location of Counterweights	22
2.3.2 Counterweight Guards	22
2.3.3 Remote Counterweight Hoistways	22
2.3.4 Counterweight Runway Enclosures	23
2.4 Vertical Clearances and Runbys for Cars and Counterweights	23
2.4.1 Bottom Car Clearances	23
2.4.2 Minimum Bottom Runby for Counterweighted Elevators	23
2.4.3 Minimum Bottom Runby for Uncounterweighted Elevators	24
2.4.4 Maximum Bottom Runby	24
2.4.5 Counterweight Runby Data Plate	24
2.4.6 Maximum Upward Movement of the Car	24
2.4.7 Top Car Clearances	24
2.4.8 Top of Counterweight Clearances	25
2.4.9 Equipment on Top of Car Not Permitted to Strike Overhead Structure	25
2.4.10 Deleted	25
2.4.11 Deleted	25
2.4.12 Deleted	25
2.5 Horizontal Car and Counterweight Clearances	25
2.5.1 Clearances Between Cars, Counterweights, and Hoistway Enclosures	25
2.6 Protection of Space Below Hoistways	26
2.6.1 Where the Space is Underneath the Counterweight and/or Its Guides	26
2.6.2 Where the Space is Underneath the Car and/or Its Guides	26
2.7 Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	26
2.7.1 Enclosure of Rooms and Spaces	26
2.7.2 Maintenance Path and Clearance	27
2.7.3 Access to Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	27
2.7.4 Headroom in Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	25
2.7.5 Working Areas Inside the Hoistway and in the Pit	28
2.7.6 Location of Machinery Spaces, Machine Rooms, Control Spaces, Control Rooms and Equipment	31
2.7.7 Machine and Control Rooms Underneath the Hoistway	33
2.7.8 Remote Machine Rooms and Control Rooms	33
2.7.9 Lighting, Temperature, and Humidity in Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	34

2.8 Equipment in Hoistways, Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	34
2.8.1 Equipment Allowed	34
2.8.2 Electrical Equipment and Wiring.....	34
2.8.3 Pipes, Ducts, Tanks, and Sprinklers.....	34
2.8.4 Electrical Heaters.....	35
2.8.5 Air Conditioning.....	35
2.8.6 Miscellaneous Equipment	35
2.9 Machinery and Sheave Beams, Supports, and Foundations	35
2.9.1 Supports Required.....	35
2.9.2 Loads on Machinery and Sheave Beams, Floors, or Foundations and Their Supports.....	36
2.9.3 Securing of Machinery and Equipment to Beams, Foundations, Guide Rails Structural Walls, or Floors.....	36
2.9.4 Allowable Stresses for Machinery and Sheave Beams or Floors, Their Supports, and Any Support Members That Transmit Load to the Guide Rails or Structural Walls	37
2.9.5 Allowable Deflections of Machinery and Sheave Beams, Their Supports, and Any Support Members Loaded in Bending That Transmit Load to Guide Rails or Structural Walls	37
2.9.6 Allowable Stresses Due to Emergency Braking.....	37
2.10 Guarding of Equipment and Standard Railing	37
2.10.1 Guarding of Equipment.....	37
2.10.2 Standard Railing.....	38
2.11 Protection of Hoistway Openings	38
2.11.1 Entrances and Emergency Doors Required.....	38
2.11.2 Types of Entrances.....	39
2.11.3 Closing of Hoistway Doors.....	39
2.11.4 Location of Horizontally Sliding or Swinging Hoistway Doors.....	39
2.11.5 Projection of Entrances and Other Equipment Beyond the Landing Sills.....	39
2.11.6 Opening of Hoistway Doors.....	39
2.11.7 Glass in Hoistway Doors.....	39
2.11.8 Weights for Closing or Balancing Doors.....	40
2.11.9 Hoistway Door Locking Devices and Power Operation.....	40
2.11.10 Landing-Sill Guards, Landing-Sill Illumination, Hinged Landing Sills, and Tracks on Landings.....	40
2.11.11 Entrances, Horizontal Slide Type.....	41
2.11.12 Entrances, Vertical Slide Type.....	42
2.11.13 Entrances, Swinging Type.....	44
2.11.14 Fire Tests.....	44
2.11.15 Marking.....	45
2.11.16 Factory Inspections.....	45
2.11.17 Transoms and Fixed Side Panels.....	45
2.11.18 Installation Instructions.....	45
2.11.19 Gasketing of Hoistway Entrances.....	46
2.12 Hoistway Door Locking Devices and Electric Contacts, and Hoistway Access Switches	46
2.12.1 General.....	46
2.12.2 Interlocks.....	46
2.12.3 Hoistway Door Combination Mechanical Locks and Electric Contacts.....	47
2.12.4 Listing/Certification Door Locking Devices and Door or Gate Electric Contacts.....	48
2.12.5 Restricted Opening of Hoistway or Car Doors	48
2.12.6 Hoistway Door Unlocking Devices.....	48
2.12.7 Hoistway Access Switches.....	49
2.13 Power Operation of Hoistway Doors and Car Doors	50
2.13.1 Types of Doors and Gates Permitted.....	50
2.13.2 Power Opening.....	50
2.13.3 Power Closing.....	50
2.13.4 Closing Limitations for Power-Operated Horizontally Sliding Hoistway Doors and Horizontally Sliding Car Doors or Gates.....	54
2.13.5 Reopening Device for Power-Operated Car Doors or Gates.....	55
2.13.6 Sequence Operation for Power-Operated Hoistway Doors with Car Doors/Gates.....	55

2.14 Car Enclosures, Car Doors and Gates, and Car Illumination	55
2.14.1 Passenger and Freight Enclosures, General.....	55
2.14.2 Passenger-Car Enclosures.....	58
2.14.3 Freight-Car Enclosure.....	59
2.14.4 Passenger and Freight Car Doors and Gates, General Requirements.....	59
2.14.5 Passenger Car Doors.....	61
2.14.6 Freight Elevator Car Doors and Gates.....	62
2.14.7 Illumination of Cars and Lighting Fixtures.....	63
2.15 Car Frames and Platforms	64
2.15.1 Car Frames Required.....	64
2.15.2 Guiding Members.....	64
2.15.3 Design of Car Frames and Guiding Members.....	64
2.15.4 Underslung or Sub-Post Frames.....	64
2.15.5 Car Platforms.....	64
2.15.6 Materials for Car Frames and Platform Frames.....	65
2.15.7 Car Frame and Platform Connections.....	65
2.15.8 Protection of Platforms Against Fire.....	65
2.15.9 Platform Guards (Aprons).....	66
2.15.10 Maximum Allowable Stresses in Car Frame and Platform Members and Connections...	66
2.15.11 Maximum Allowable Deflections of Car Frame and Platform Members.....	66
2.15.12 Car Frames with Sheaves.....	66
2.15.13 Suspension-Rope Hitch Plates or Shapes.....	66
2.15.14 Calculation of Stresses in Car-Frame and Platform-Frame Members.....	67
2.15.15 Platform Side Braces.....	67
2.15.16 Hinged Platform Sills.....	67
2.15.17 Fastening of Compensation Means.....	67
2.16 Capacity and Loading	67
2.16.1 Minimum Rated Load for Passenger Elevators.....	67
2.16.2 Minimum Rated Load for Freight Elevators.....	68
2.16.3 Capacity and Data Plates.....	69
2.16.4 Carrying of Passengers on Freight Elevators.....	70
2.16.5 Signs Required in Freight Elevator Cars.....	70
2.16.6 Overloading of Freight Elevators.....	70
2.16.7 Carrying of One-Piece Loads Exceeding the Rated Load.....	70
2.16.8 Additional Requirements for Passenger Overload in the Down Direction	71
2.16.9 Special Loading Means.....	71
2.17 Car and Counterweight Safeties	72
2.17.1 Where Required and Location.....	72
2.17.2 Duplex Safeties.....	72
2.17.3 Function and Stopping Distance of Safeties.....	72
2.17.4 Counterweight Safeties.....	72
2.17.5 Identification and Classification of Types of Safeties.....	72
2.17.6 Reserved for Future Use.....	72
2.17.7 Governor-Actuated Safeties and Car-Safety Mechanism Switches Required.....	72
2.17.8 Limits of Use of Various Types of Safeties.....	72
2.17.9 Application and Release of Safeties.....	74
2.17.10 Minimum Permissible Clearance Between Rail-Gripping Faces of Safety Parts.....	74
2.17.11 Maximum Permissible Movement of Governor Rope to Operate the Safety Mechanism	74
2.17.12 Minimum Factors of Safety and Stresses of Safety Parts and Rope Connections.....	74
2.17.13 Corrosion-Resistant Bearings in Safeties and Safety-Operating Mechanisms.....	75
2.17.14 Marking Plates for Safeties.....	75
2.17.15 Governor-Rope Releasing Carriers.....	75
2.17.16 Rail Lubricants and Lubrication Plate.....	75
2.18 Speed Governors	75
2.18.1 Speed Governors Required and Location.....	75
2.18.2 Tripping Speeds for Speed Governors.....	75
2.18.3 Sealing and Painting of Speed Governors.....	75
2.18.4 Speed-Governor Overspeed Switch.....	76
2.18.5 Governor Ropes.....	77

2.18.6 Design of Governor Rope-Retarding Means for Type B Safeties.....	77
2.18.7 Design of Speed-Governor Sheaves & Traction Between Speed-Governor Rope & Sheave	77
2.18.8 Factors of Safety in Load-Bearing parts of Speed Governor.....	78
2.18.9 Speed-Governor Marking Plate.....	78
2.19 Ascending Car Overspeed and Unintended Car Movement Protection	78
2.19.1 Ascending Car Overspeed Protection.....	78
2.19.2 Protection Against Unintended Car Movement.....	79
2.19.3 Emergency Brake.....	79
2.19.4 Emergency Brake Supports.....	80
2.20 Suspension Means and Their Connections	80
2.20.1 Suspension Means.....	80
2.20.2 Wire Rope Data.....	80
2.20.3 Factor of Safety.....	81
2.20.4 Minimum Number and Diameter of Suspension Ropes	82
2.20.5 Suspension-Member Equalizers.....	82
2.20.6 Securing of Suspension Wire Ropes to Winding Drums.....	82
2.20.7 Spare Rope Turns on Winding Drums.....	82
2.20.8 Suspension-Means Monitoring and Protection	82
2.20.9 Suspension Member Fastening.....	83
2.20.10 Auxiliary Rope Fastening Devices.....	88
2.20.11 Suspension Member Test Devices.....	88
2.21 Counterweights	89
2.21.1 General Requirements.....	89
2.21.2 Design Requirements for Frames and Rods.....	89
2.21.3 Cars Counterbalancing One Another.....	89
2.21.4 Compensation Means.....	89
2.21.4.2 Tie-Down Compensation Means	89
2.22 Buffers and Bumpers	90
2.22.1 Type and Location.....	90
2.22.2 Solid Bumpers.....	90
2.22.3 Spring Buffers.....	90
2.22.4 Oil Buffers.....	90
2.23 Car and Counterweight Guide Rails, Guide-Rail Supports, and Fastenings	92
2.23.1 Guide Rails Required.....	92
2.23.2 Material.....	92
2.23.3 Rail Section.....	93
2.23.4 Maximum Load on Rails in Relation to the Bracket Spacing.....	93
2.23.5 Stresses and Deflections.....	94
2.23.6 Guide-Rail Surfaces.....	94
2.23.7 Rail Joints and Fishplates.....	94
2.23.8 Overall Length of Guide Rails.....	100
2.23.9 Guide-Rail Brackets and Building Supports.....	100
2.23.10 Fastening of Guide Rails to Rail Brackets.....	101
2.24 Driving Machines and Sheaves	101
2.24.1 Type of Driving Machines.....	101
2.24.2 Sheaves and Drums.....	101
2.24.3 Factor of Safety for Driving Machines and Sheaves.....	102
2.24.4 Fasteners Transmitting Load.....	103
2.24.5 Shaft Fillets and Keys.....	103
2.24.6 Cast-Iron Worms and Worm Gears.....	103
2.24.7 Friction Gearing and Clutches.....	103
2.24.8 Braking System and Driving-Machine Brakes.....	103
2.24.9 Indirect-Driving Machines.....	103
2.24.10 Means for Inspection of Gears.....	104
2.25 Terminal-Stopping Device	104
2.25.1 General Requirements.....	104
2.25.2 Normal Terminal Stopping Devices.....	104
2.25.3 Final Terminal Stopping Devices.....	105

2.25.4 Emergency Terminal Stopping Means.....	105
2.26 Operating Devices and Control Equipment	106
2.26.1 Operation and Operating Devices.....	106
2.26.2 Electrical Protective Devices.....	109
2.26.3 Contractors and Relays for Use in Critical Operating Circuits.....	111
2.26.4 Electrical Equipment and Wiring.....	111
2.26.5 System to Monitor and Prevent Automatic Operation of the Elevator w/Faulty Door Contact Circuits	111
2.26.6 Phase Protection of Motors.....	111
2.26.7 Installation of Capacitors or Other Devices to Make Electrical Protective Devices Ineffective	113
2.26.8 Release and Application of Driving Machine Brakes.....	113
2.26.9 Control and Operating Circuits.....	114
2.26.10 Absorption of Regenerated Power.....	115
2.26.11 Car Platform to Hoistway Door Sills Vertical Distance.....	115
2.26.12 Symbols.....	115
2.27 Emergency Operation and Signaling Devices	117
2.27.1 Car Emergency Signaling Devices.....	117
2.27.2 Emergency or Standby Power System.....	118
2.27.3 Firefighters’ Emergency Operation: Automatic Elevators.....	119
2.27.4 Firefighters’ Emergency Operation: Non-Automatic Elevators.....	125
2.27.5 Firefighters’ Emergency Operation: Automatic Elevators w/Designated Attendant Operation	126
2.27.6 Firefighters’ Emergency Operation: Inspection Operation.....	126
2.27.7 Firefighters’ Emergency Operation: Operating Procedures.....	126
2.27.8 Switch Keys.....	127
2.27.9 Elevator Corridor Call Station Pictograph	127
2.28 Layout Drawings	127
2.28.1 Information Required on Layout Drawings.....	127
2.29 Identification	128
2.29.1 Identification of Equipment.....	128
2.29.2 Identification of Floors.....	128
 Part 3 Hydraulic Elevators	 130
3.1 Construction of Hoistways and Hoistway Enclosures	130
3.1.1 Strength of Pit Floor.....	130
3.1.2 Floors Over Hoistways.....	130
3.2 Pits.....	130
3.2.1 Minimum Pit Depths Required.....	130
3.3 Location and Guarding of Counterweights	130
3.4 Bottom and Top Clearances & Runbys for Cars & Counterweights	130
3.4.1 Bottom Car Clearance.....	130
3.4.2 Minimum Bottom and Top Car Runby.....	131
3.4.3 Car Top and Bottom Maximum Runby.....	131
3.4.4 Maximum Upward Movement	131
3.4.5 Top Car Clearance.....	131
3.4.6 Top Clearance and Bottom Runby of Counterweight.....	131
3.4.7 Equipment on Top of Car Not Permitted to Strike Overhead Structure	131
3.4.8 Clearances Above Hydraulic Jack Projecting Above the Car	131
3.5 Horizontal Car and Counterweight Clearances	131
3.6 Protection of Spaces Below Hoistway	131
3.6.1 Jack-Supporting Structure.....	132
3.6.2 Counterweight Safety Actuation.....	132
3.6.3 Buffer Types.....	132
3.6.4 Buffer Supports.....	132
3.7 Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms.....	132
3.7.1 Location of Machine Rooms.....	132
3.8 Electrical Equipment, Wiring, Pipes, and Ducts in Hoistway, Machinery Spaces, Machine Rooms, Control Spaces, and Control Rooms	132

3.9 Machinery and Sheave Beams, Supports and Foundations	132
3.10 Guarding of Exposed Auxiliary Equipment	132
3.11 Protection of Hoistway Landing Openings	133
3.11.1 Emergency Doors	133
3.12 Hoistway Door Locking Devices, Car Door/Gate Electric Contacts, Hoistway Access Switches	133
3.12.1 Hoistway Door Locking Devices and Electric Contacts and Hoistway Access Switches.....	133
3.12.2 Car Door or Gate Electric Contacts and Car Door Interlocks.....	133
3.13 Power Operation, Power Opening and Power Closing of Hoistway Doors/Car Doors/Gates	133
3.14 Car Enclosures, Car Doors and Gates, and Car Illumination	133
3.15 Car Frames and Platforms	133
3.15.1 Requirements.....	133
3.15.2 Maximum Allowable Stresses & Deflections in Car Frame and Platform Members.....	133
3.15.3 Calculations of Stresses & Deflections in Car Frame and Platform Members.....	133
3.16 Capacity and Loading	134
3.16.1 Minimum Rated Load for Passenger Elevators.....	134
3.16.2 Minimum Rated Load for Freight Elevators.....	134
3.16.3 Capacity and Data Plates.....	134
3.16.4 Carrying of Passengers on Freight Elevators.....	134
3.16.5 Signs Required in Freight Elevators.....	134
3.16.6 Overloading of Freight Elevators.....	134
3.16.7 One-Piece Loads Exceeding the Rated Load.....	134
3.16.8 Additional Requirements for Passenger Overload.....	134
3.16.9 Special Loading Means.....	134
3.17 Car Safeties, Counterweight Safeties, Plunger Gripper, and Governors	134
3.17.1 Car Safeties.....	134
3.17.2 Counterweight Safeties.....	134
3.17.3 Plunger Gripper.....	134
3.17.4 Governors	136
3.18 Hydraulic Jacks	136
3.18.1 Hydraulic Jack and Connections.....	136
3.18.2 Plungers.....	136
3.18.3 Cylinders.....	137
3.18.4 Plunger Stops.....	138
3.18.5 Welding.....	138
3.18.6 Marking of Hydraulic Jack	138
3.19 Valves, Pressure Piping and Fittings	138
3.19.1 Materials and Working Pressures.....	138
3.19.2 Pressure Piping.....	139
3.19.3 Connections and Fittings.....	139
3.19.4 Valves.....	139
3.19.5 Piping Buried in the Ground.....	141
3.19.6 Welding.....	141
3.19.7 Electrical Requirements.....	141
3.20 Ropes and Rope Connections	141
3.21 Counterweights	141
3.21.1 Counterweights	141
3.21.2 Counterweight Sheaves.....	141
3.22 Buffers and Bumpers	141
3.22.1 Car Buffers or Bumpers.....	141
3.22.2 Counterweight Buffers.....	142
3.23 Guide Rails, Guide-Rail Supports, and Fastenings.....	142
3.23.1 Direct-Acting Hydraulic Elevators.....	142
3.23.2 Roped-Hydraulic Elevators.....	142
3.24 Hydraulic Machines and Tanks	142
3.24.1 Hydraulic Machines (Power Units)	142
3.24.2 Tanks.....	142

3.24.3 Atmosphere Storage and Discharge Tanks.....	142
3.24.4 Welding.....	142
3.25 Terminal-Stopping Devices.....	142
3.25.1 Normal Terminal Stopping Devices.....	142
3.25.2 Terminal Speed Reducing Devices.....	143
3.25.3 Final Terminal Stopping Devices.....	143
3.26 Operating Devices and Control Equipment.....	143
3.26.1 Operating Devices and Control Equipment.....	143
3.26.2 Inspection Operation.....	144
3.26.3 Anti-Creep and Leveling Operation.....	144
3.26.4 Electrical Protective Devices.....	144
3.26.5 Phase Reversal and Failure Protection.....	144
3.26.6 Control and Operating Circuits.....	144
3.26.7 Recycling Operation for Multiple or Telescopic Plungers.....	145
3.26.8 Pressure Switch.....	145
3.26.9 Low Oil Protection.....	145
3.26.10 Auxiliary Power Lowering Operation.....	145
3.27 Emergency Operation and Signaling Devices.....	146
3.27.1 Phase I Emergency Recall Operation After Device Actuation.....	146
3.27.2 Phase I Emergency Recall Operation Prior to Device Actuation.....	146
3.27.3 Device Actuation at Recall Level.....	146
3.27.4 Device Actuation w/Phase II Emergency In-Car Operation in Effect.....	146
3.28 Layout Data.....	146
3.28.1 Information Required on Layout Drawing.....	146
3.29 Identification.....	147
 Part 4 Elevators with Other Types of Driving Machines.....	 148
4.1 Rack and Pinion Elevators.....	148
4.1.1 Hoistways, Hoistway Enclosures, and Related Construction.....	148
4.1.2 Machinery Rooms and Machinery Spaces.....	148
4.1.3 Equipment in Hoistways or Machine Rooms.....	148
4.1.4 Supports and Foundations.....	148
4.1.5 Emergency Doors.....	148
4.1.6 Car Enclosures, Car Doors and Gates, and Car Illumination.....	148
4.1.7 Car Frames and Platforms.....	148
4.1.8 Capacity and Loading.....	149
4.1.9 Car Safeties and Speed Governor.....	149
4.1.10 Counterweights.....	149
4.1.11 Car Buffers.....	149
4.1.12 Guide Rails, Guide-Rail Supports and Fastenings.....	149
4.1.13 Rack and Pinion Driving Machine.....	149
4.1.14 Terminal Stopping Devices.....	149
4.1.15 Operating Devices and Control Equipment.....	149
4.1.16 Emergency Operation and Signal Devices.....	150
4.1.17 Layout Drawings.....	150
4.1.18 Welding.....	150
4.2 Screw-Column Elevators.....	150
4.2.1 Hoistways, Hoistway Enclosures, and Related Construction.....	150
4.2.2 Vertical Clearance and Runby for Cars.....	151
4.2.3 Horizontal Car Clearance.....	151
4.2.4 Protection of Spaces Below Hoistway.....	151
4.2.5 Machine Rooms and Machinery Spaces.....	151
4.2.6 Equipment in Hoistways and Machine Rooms.....	151
4.2.7 Supports and Foundations.....	151
4.2.8 Car Enclosures, Car Doors and Gates, and Car Illumination.....	152
4.2.9 Car Frames and Platforms.....	152
4.2.10 Capacity and Loading.....	152
4.2.11 Car Safeties and Speed Governor.....	152
4.2.12 Safety Nut and Data Tag.....	152

4.2.13 Car Buffers.....	152
4.2.14 Guide Rails, Guide-Rail Supports and Fastenings.....	152
4.2.15 Driving Machine and Screw Column.....	152
4.2.16 Terminal Stopping Devices	153
4.2.17 Operating Devices and Control Equipment.....	153
4.2.18 Emergency Operation and Signaling Devices.....	154
4.2.19 Layout Drawings.....	154
4.2.20 Welding.....	154
4.3 Hand Elevators.....	154
4.3.1 Hoistways, Hoistway Enclosures, and Related Construction.....	154
4.3.2 Pits.....	154
4.3.3 Top Clearances.....	154
4.3.4 Enclosures for Machines and Control Equipment.....	154
4.3.5 Overhead Beams and Supports, and Access to Machines and Sheaves.....	154
4.3.6 Hoistway Entrances.....	154
4.3.7 Hoistway Gates for Landing Openings.....	155
4.3.8 Hoistway Door and Hoistway Gate Locking Devices.....	155
4.3.9 Car Enclosures.....	155
4.3.10 Use of Glass in Cars.....	155
4.3.11 Car Frames and Platforms.....	155
4.3.12 Car Compartments.....	155
4.3.13 Cars Counterbalancing One Another.....	155
4.3.14 Capacity and Loading.....	155
4.3.15 Car Safeties.....	156
4.3.16 Suspension Means.....	156
4.3.17 Counterweights.....	156
4.3.18 Guide Rails and Fastenings.....	156
4.3.19 Driving Machines and Sheaves.....	156
4.3.20 Power Attachments.....	156
4.3.21 Layout Data.....	156
4.3.22 Inspections and Tests.....	156
Part 5 Special Application Elevators	157
5.1 Inclined Elevators.....	157
5.1.1 General Requirements.....	157
5.1.2 Construction of Hoistway and Hoistway Enclosures.....	157
5.1.3 Pits and Work Spaces.....	157
5.1.4 Counterweight Pit Guards.....	158
5.1.5 Clearances for Cars and Counterweights.....	158
5.1.6 Protection of Spaces in Line With the Direction of Travel.....	158
5.1.7 Equipment in Hoistways and Machine Rooms.....	158
5.1.8 Protection of Hoistway Openings.....	158
5.1.9 Restricted Opening of Hoistway or Car Doors	158
5.1.10 Access to Hoistways for Inspection, Maintenance, and Repairs.....	158
5.1.11 Car Enclosures.....	158
5.1.12 Car Frames and Platforms.....	159
5.1.13 Capacity and Loading.....	159
5.1.14 Car and Counterweight Safeties.....	159
5.1.15 Speed Governor Drive.....	161
5.1.16 Suspension Ropes and Their Connections.....	161
5.1.17 Car and Counterweight Buffers.....	161
5.1.18 Car and Counterweight Guide Rails, Guide-Rail Supports, and Fastenings.....	161
5.1.19 Driving Machines.....	162
5.1.20 Operating Devices and Control Equipment.....	162
5.1.21 Emergency Operations and Signaling Devices.....	162
5.1.22 End-Loading Inclined Elevators.....	163
5.1.23 Special Requirements for Inclined Elevator Layout Drawings	163
5.2 Limited-Use/Limited-Application Elevators	163
5.2.1 Electric Limited-Use/Limited-Application Elevators	163

5.2.1.1 Construction of Hoistway and Hoistway Enclosure	163
5.2.1.2 Pits.....	163
5.2.1.3 Location and Guarding of Counterweights	163
5.2.1.4 Vertical Clearances and Runbys for Cars and Counterweights	163
5.2.1.5 Horizontal Car and Counterweight Clearances	164
5.2.1.6 Protection of Spaces Below Hoistways	164
5.2.1.7 Machinery Spaces, Machine Rooms, Control Spaces and Control Rooms	164
5.2.1.8 Equipment in Hoistways, Machinery Spaces, Machine Rooms, Control Spaces and Control Rooms	164
5.2.1.9 Machinery and Sheave Beams, Supports, and Foundations	164
5.2.1.10 Guarding	164
5.2.1.11 Protection of Hoistway Landing Openings	164
5.2.1.12 Hoistway Door Locking Devices and Electric Contacts, and Hoistway Access Switches	164
5.2.1.13 Power Operation of Hoistway Doors and Car Doors	165
5.2.1.14 Car Enclosures, Car Doors, and Car Illumination	165
5.2.1.15 Car Frames and Platforms	165
5.2.1.16 Capacity, Loading, Speed, and Rise.	165
5.2.1.17 Car and Counterweight	165
5.2.1.18 Speed Governors	165
5.2.1.19 Ascending Car Overspeed and Unintended Car Movement Protection	165
5.2.1.20 Suspension Ropes and Their Connections	166
5.2.1.21 Counterweights	166
5.2.1.22 Buffers and Bumpers	166
5.2.1.23 Car and Counterweight Guide Rails, Guide-Rail Supports, and Fastenings	166
5.2.1.24 Driving Machine and Sheaves	166
5.2.1.25 Terminal Stopping Devices	167
5.2.1.26 Operating Devices and Control Equipment	167
5.2.1.27 Emergency Operations and Signaling Devices	167
5.2.1.28 Manual Operation	167
5.2.1.29 Layout Data	167
5.2.1.30 Welding	167
5.2.1.31 Identification	167
5.2.2 Hydraulic Limited-Use/Limited-Application Elevators	167
5.2.2.1 Bottom and Top Clearances and Runbys	167
5.2.2.2 Machinery Spaces, Machine Rooms Control Spaces and Control Rooms	167
5.2.2.3 Car Frames and Platforms.....	167
5.2.2.4 Capacity and Loading	167
5.2.2.5 Alternative to Speed Governor for Roped-Hydraulic Elevators	167
5.2.2.6 Hydraulic Jacks and Sheaves	167
5.2.2.7 Valves, Pressure Piping, and Fittings	167
5.2.2.8 Counterweights	167
5.2.2.9 Buffers and Bumpers	167
5.2.2.10 Guide Rails, Guide-Rail Supports, and Their Fastenings	167
5.2.2.11 Hydraulic Machines and Tanks	168
5.2.2.12 Terminal Stopping Devices	168
5.2.2.13 Operating Devices and Control Equipment	168
5.2.2.14 Emergency Operations and Signaling Devices	168
5.2.2.15 Layout Data	168
5.3 Private Residence Elevators	168
5.3.1 Private Residence Electric Elevators	168
5.3.1.1 Construction of Hoistway and Hoistway Enclosures	168
5.3.1.2 Pits	168
5.3.1.3 Top Car Clearances	168
5.3.1.4 Horizontal Car Clearances	168
5.3.1.5 Pipes in Hoistways	169
5.3.1.6 Guarding of Suspension Means	169
5.3.1.7 Protection of Hoistway Openings	169
5.3.1.8 Car Enclosures, Car Doors and Gates, and Car Illumination	170

5.3.1.9 Car Frames and Platforms	170
5.3.1.10 Capacity, Loading, Speed, and Rise	170
5.3.1.11 Safeties and Governors	170
5.3.1.12 Suspension Means	171
5.3.1.13 Counterweights	171
5.3.1.14 Buffers and Buffer Supports	172
5.3.1.15 Car and Counterweight Guide Rails and Guide Fastenings	172
5.3.1.16 Driving Machine, Sheaves, and Their Supports.....	172
5.3.1.17 Terminal Stopping Devices	173
5.3.1.18 Operating Devices and Control Equipment	174
5.3.1.19 Emergency Signaling Devices	175
5.3.1.20 Marking Plates	175
5.3.2 Private Residence Hydraulic Elevators	175
5.3.2.1 General Requirements for Hydraulic Private Residence Elevators	175
5.3.2.2 Driving Machines, Sheaves, and Supports for Direct-Plunger and Roped-Hydraulic Driving Machines	175
5.3.2.3 Terminal Stopping Devices.....	175
5.3.2.4 Anticreep Leveling Devices	175
5.4 Private Residence Inclined Elevators	175
5.4.1 Runway Protection	175
5.4.2 Landing Enclosures and Gates (Where Required).....	176
5.4.3 Machinery Beams and Supports.....	176
5.4.4 Car Enclosures, Car Doors, and Gates.....	176
5.4.5 Car and Chassis Construction.....	177
5.4.6 Capacity.....	177
5.4.7 Safeties and Governors.....	177
5.4.8 Suspension Means.....	178

7.9.1 Hoistways, Hoistway Enclosures, and Related Construction.....	250
7.9.2 Machinery and Equipment.....	250
7.10 Hydraulic Material Lifts with Automatic Transfer Devices	251
7.11 Material Lifts with Obscured Transfer Devices	251
Part 8 General Requirements	252
8.1 Security	252
8.1.1 General.....	252
8.1.2 Group 1: Restricted.....	252
8.1.3 Group 2: Authorized Personnel.....	252
8.1.4 Group 3: Emergency Operation.....	252
8.1.5 Group 4: Other.....	253
8.2 Design Data and Formulas	253
8.2.1 Minimum Rated Load for Passenger Elevators.....	253
8.2.2 Electric Elevator Car Frame and Platform Stresses and Deflections.....	253
8.2.3 Impact on Buffer Supports.....	256
8.2.4 Gravity Stopping Distances.....	257
8.2.5 Governor Tripping Speeds.....	257
8.2.6 Stopping Distances for Car and Counterweight Safeties.....	257
8.2.7 Factors of Safety for Suspension Wire Ropes for Power Elevators.....	257
8.2.8 Hydraulic Jack and Piping.....	257
8.2.9 Hydraulic Elevator Car Frame and Platform Stresses and Deflections.....	268
8.2.10 Minimum Oil Buffer Strokes: Inclined Elevators.....	270
8.2.11 Stopping Distances for Car and Counterweight Safeties for Inclined Elevators.....	270
8.2.12 Material Lifts with Automatic Transfer Devices, Design, Data, and Formulas.....	271
8.3 Engineering Tests, Type Tests, and Certification	271
8.3.1 General Requirements for Tests and Certification.....	271
8.3.2 Type Tests of Car and Counterweight Oil Buffers.....	272
8.3.3 Type Tests of Interlocks, Combination Mechanical Locks & Electric Contacts, & Door Or Gate Electric Contacts.....	274
8.3.4 Entrance Fire Type Tests.....	276
8.3.5 Type Tests for Hydraulic Control Valves.....	276
8.3.6 Escalator Brake Type Test.....	277
8.3.7 Vertical Burn Engineering Test.....	277
8.3.8 Test Method for Evaluating Room Fire Growth Contribution of Textile Wall Covering...	278
8.3.9 Engineering Tests for Hydraulic Overspeed Valves.....	278
8.3.10 Engineering Tests – Safety Nut & Speed Limiting Devices of Screw-Column Elevators.	278
8.3.11 Step and Pallet Fatigue Engineering Test.....	278
8.4 Elevator Safety Requirements for Seismic Risk Zone 2 or Greater	279
8.4.1 Horizontal Car and Counterweight Clearances.....	280
8.4.2 Machinery and Sheave Beams, Supports, and Foundations.....	280
8.4.3 Guarding of Equipment.....	280
8.4.4 Car Enclosures, Car Doors and Gates, and Car Illumination.....	281

8.4.5 Car Frames and Platforms.....	281
8.4.6 Car and Counterweight Safeties.....	281
8.4.7 Counterweights.....	281
8.4.8 Car and Counterweight Guide Rail Systems.....	282
8.4.9 Driving Machines and Sheaves.....	293
8.4.10 Emergency Operation and Signaling Devices.....	293
8.4.11 Hydraulic Elevators.....	295
8.4.12 Design Data and Formulas for Elevators.....	298
8.4.13 Ground Motion Parameters.....	301
8.5 Escalator and Moving Walk Safety Requirement for Seismic Risk Zone 2 or Greater	301
8.5.1 Balustrade Construction.....	301
8.5.2 Truss Members.....	301
8.5.3 Supporting Connections Between the Truss and the Building.....	302
8.5.4 Earthquake Protective Devices.....	302
8.6 Maintenance, Repair, Replacement and Testing	302
8.6.1 General Requirements.....	302
8.6.2 Repairs.....	304
8.6.3 Replacements.....	305
8.6.4 Maintenance and Testing of Electric Elevators.....	306
8.6.4.19 Periodic Test Requirements – Category 1	309
8.6.4.20 Periodic Test Requirements – Category 5	310
8.6.5 Maintenance and Testing of Hydraulic Elevators.....	311
8.6.5.14 Periodic Test Requirements – Category 1	312
8.6.5.15 Periodic Test Requirements – Category 3	313
8.6.5.16 Periodic Test Requirements – Category 5	313
8.6.6 Maintenance and Testing of Elevators with Other Types of Driving Machines	313
8.6.6.1 Rack-and-Pinion Elevators	313
8.6.6.1.1 Rack-and-Pinion Elevator Periodic Test	313
8.6.6.2 Screw-Column Elevators	313
8.6.6.2.1 Screw Column Elevator Periodic Test	313
8.6.6.3 Hand Elevators	313
8.6.6.3.1 Hand Elevator Periodic Test	313
8.6.7 Maintenance and Testing of Special Application Elevators.....	313
8.6.7.1 Inclined Elevators	313
8.6.7.1.1 Periodic Test	314
8.6.7.2 Limited-Use/Limited-Application Elevators	314
8.6.7.2.1 Periodic Test	314
8.6.7.3 Private Residence Elevators	314
8.6.7.3.1 Periodic Test	314
8.6.7.4 Private Residence Inclined Elevators	314
8.6.7.4.1 Periodic Test	314
8.6.7.5 Power Sidewalk Elevators	314
8.6.7.5.1 Periodic Test	314
8.6.7.6 Rooftop Elevators	314
8.6.7.6.1 Periodic Test	314
8.6.7.7 Special Purpose Personnel Elevators	314
8.6.7.7.1 Periodic Test	314
8.6.7.8 Shipboard Elevators	314
8.6.7.8.1 Periodic Test	314
8.6.7.9 Mine Elevators	314
8.6.7.9.5 Periodic Test	315
8.6.7.10 Elevators Used for Construction	315
8.6.7.10.1 Periodic Test Requirements – Category 1.....	315
8.6.7.10.2 Periodic Test Requirements – Category 3.....	315
8.6.7.10.3 Periodic Test Requirements – Category 5.....	315
8.6.8 Maintenance and Testing of Escalator and Moving Walks	315
8.6.8.15 Periodic Test Requirements – Category 1.....	316
8.6.9 Maintenance and Testing of Moving Walks	318
8.6.10 Maintenance and Testing of Dumbwaiters and Material Lifts	319

8.6.10.1 Material Lifts and Dumbwaiters Without Automatic Transfer Devices	319
8.6.10.1.1 Periodic Test	319
8.6.10.2 Material Lifts and Dumbwaiters With Automatic Transfer Devices	319
8.6.10.2.1 Periodic Test	319
8.6.11 Special Provisions.....	319
8.7 Alterations	321
8.7.1 General Requirements.....	321
8.7.2 Alterations to Electric Elevators.....	321
8.7.3 Alterations to Hydraulic Elevators.....	329
8.7.4 Alterations to Elevators with Other Types of Driving Machines.....	333
8.7.5 Alterations to Special Application Elevators.....	333
8.7.6 Alterations to Escalators and Moving Walks.....	334
8.7.7 Alterations to Dumbwaiters and Material Lifts.....	336
8.8 Welding	336
8.8.1 Qualification of Welders.....	336
8.8.2 Welding Steel.....	336
8.8.3 Welding Metals Other Than Steel.....	336
8.9 Code Data Plate	336
8.9.1 Required Information.....	336
8.9.2 Location.....	337
8.9.3 Material and Construction.....	337
8.10 Acceptance Inspections and Tests	337
8.10.1 General Requirements for Acceptance Inspections and Tests.....	337
8.10.2 Acceptance Inspection and Tests of Electric Elevators.....	337
8.10.2.2 Inspection and Tests Requirements for New Installations	337
8.10.2.3 Inspection and Tests Requirements for Altered Installations	343
8.10.3 Acceptance Inspection and Tests of Hydraulic Elevators.....	344
8.10.3.2 Inspection and Tests Requirements for New Installations	344
8.10.3.3 Inspection and Tests Requirements for Altered Installations	348
8.10.4 Acceptance Inspection and Tests of Escalators and Moving Walks.....	348
8.10.4.1 Inspection and Tests Requirements for New Installations	348
8.10.4.2 Inspection and Tests Requirements for Altered Installations	351
8.10.5 Acceptance Inspection and Tests of Other Equipment.....	352
8.10.5.1 Sidewalk Elevator	352
8.10.5.2 Private Residence Elevators	352
8.10.5.3 Hand Elevators	352
8.10.5.4 Dumbwaiters	352
8.10.5.5 Material Lifts and Dumbwaiters With Automatic Transfer Devices	352
8.10.5.6 Special Purpose Personnel Elevators	352
8.10.5.7 Inclined Elevators	352
8.10.5.8 Shipboard Elevators	352
8.10.5.9 Screw-Column Elevators	353
8.10.5.10 Elevators Used for Construction	353
8.10.5.11 Rooftop Elevators	353
8.10.5.12 Rack-and-Pinion Elevators	353
8.10.5.13 Limited-Use/Limited-Application Elevators	353
8.11 Periodic Inspections and Witnessing of Tests	353
8.11.1 General Requirements for Periodic Inspections and Witnessing of Tests.....	353
8.11.2 Periodic Inspections of Electric Elevators	354
8.11.2.1 Periodic Inspection Requirements	354
8.11.3 Periodic Inspections of Hydraulic Elevators.....	356
8.11.3.1 Periodic Inspection Requirements	356
8.11.4 Periodic Inspections of Escalators and Moving Walks	358
8.11.4.1 Periodic Inspection and Test Requirements	358
8.11.5 Periodic Inspections of Other Equipment	358
8.12 Flood Resistances	359
8.12.1 Flood-Resistant Design and Construction.	359
Part 9 Reference Codes, Standards, and Specifications	360

A17.1–2010/CSA B44-10 Table of Contents

9.1 Reference Documents.....	361
9.2 Procurement Information.....	367
Nonmandatory Appendices	369
Appendix A Control System.....	370
Appendix B Door Landing and Unlocking Zones.....	371
Appendix C Location of Top Emergency Exit.....	372
Appendix D Rated Load and Capacity Plates for Passenger Elevators.....	373
Appendix E CSA B44 Elevator Requirements for Persons with Physical Disabilities.....	374
Appendix F Ascending Car Overspeed and Unintended Car Movement Protection.....	382
Appendix G Top of Car Clearance (2.4.7.4)	386
Appendix H Private Residence Elevator Guarding (5.3.1.6.2).....	391
Appendix I Escalator and Moving Walk Diagrams.....	392
Appendix J Relationship of Pit Ladder to Hoistway Door Unlocking Means	399
Appendix K Beveling and Clearance Requirements (7.4.7.4).....	400
Appendix L Index of Alteration Requirements for Electric Elevators, Hydraulic Elevators, Escalators, and Moving Walks.....	401
Appendix M Inertia Application for Type A Safety Device Location of Test Weight [8.10.2.2.2(ii)(2)].....	406
Appendix N Recommended Inspection and Test Intervals in “Months”.....	407
NONMANDATORY APPENDIX O DELETED.....	
Appendix P Plunger Gripper Stopping Distances.....	415
Appendix Q Explanatory Figures for the Definitions of Elevator Machinery Space, Machine Room, Control Space, Control Room, Remote Machine Room, or Remote Control Room ...	416
Appendix R Inspection Operation and Hoistway Access Switch Operation Hierarchy	419
Appendix S Vertically Sliding Doors – Illustrations of Detection Zones	421
Index	437
